FILL VALVE

Fluidmaster's PRO45H Pro fill valve is designed for professional plumbers and controls both tank and bowl water levels with a new dial for maximum water control. It offers the ability to fine-tune water levels to perfection during toilet repair. The valve is ideal for high water pressure homes and properties. It can withstand up to 120-plus psi.

TWO-PIECE AND TANKLESS

American Standard's Studio S toilet collection features a new two-piece and tankless one-piece that mixes beautiful design with optimal function, making it easier to clean with slab-sided construction. Other features include PowerWash, which results in a quieter, more powerful wash, the company notes. A color-matched flush actuator is integrated into the slow-to-close seat. COMPLETE FLUSH

Equipped with Kohler's Revolution 360 flushing technology powered by AquaPiston, the Betello cleans two times better than a conventional flush, the company notes. Revolution 360 is Kohler's most complete flush ever developed, and is powered by the brand's widely popular AquaPiston canister technology that allows water to flow out of the tank at 360 degrees, Kohler adds.

SIDE-HANDLE FLUSH

The Original with Stealth Technology single-flush toilet delivers a quiet, powerful flush using only 0.8 gpf, Niagara notes. The company's Stealth Technology creates a powerful siphon and vacuum assist that requires only one flush to thoroughly evacuate the bowl every time, the company adds. The two-piece toilet is Water-Sense certified and has an elongated bowl.

WATER-EFFICIENT VITREOUS CHINA BOWLS

Saniflo vitreous china toilet bowls are available in either an elongated or round front and can be used with several of the company's macerating plumbing systems. Both toilets use only 1.28 gpf, and carry the EPA WaterSense label. The bowls have a floor-to-rim height of 16.75", enhancing user comfort and convenience, Saniflo explain.

PRESSURE-ASSISTED TOILET

Paired with Flushmate pressure-assist technology, Sloan's pressure-assisted toilets are designed to drastically reduce backups or clogs thanks to the Flushmate vessel that pushes waste out of the bowl and into the drainline faster than a gravity flush, the company notes. By doing this, Sloan states the toilets provide up to 50% longer drainline carry than gravity toilets.

PRODUCTS

FAUCET AERATORS

NEOPERL's PCA low-flow faucet outlets can help save up to 70% on water, sewer and energy bills for hot water generation, the company notes. For hard water, NEOPERL recommends trying the SLC Spray. Its silicone tip provides a softer stream and protection against lime buildup. Simply rub the silicone tip to clean the outlet.

PRESS BALL VALVES

Webstone, a brand of NIBCO, announces the new Pro-Pal T-union ball drain with hi-flow hose drain, the T-union ball and the L-union ball. These exclusive space-saving press ball valves feature integrated union tee or union elbow fittings, making them ideal for branch connections and shut-offs in tight locations. Available in an array of sizes, including reducing options.
