

SLOAN®

Dependable
performance
has never
looked better.

Unique style. Built to perform.

The Sloan® Designer Urinal is crafted to give your next commercial restroom project a distinctive edge.

Because you should never have to compromise style for performance, the Designer Urinal is conceived to meet your unique design vision and built with industry-leading durability, clockwork reliability and sustainable water savings.

Building owners rely on it. Backed by more than 110 years of Sloan innovation, the Designer Urinal delivers the durability and reliability you depend on from Sloan, along with easy installation and maintenance.

Architects and designers admire it. The compact size and sleek lines of the Designer Urinal make it ideal for any commercial restroom where visitors expect a higher degree of style.

Engineers trust it. The Designer Urinal pairs perfectly with any Sloan flushometer, so you can expect worry-free, water-saving performance for years to come.

The Sloan Designer Urinal is perfect for:

- Class A Office Buildings
- Finer Restaurants
- Hotel Lobbies
- Boutique and Retail Shopping
- Theaters and Nightclubs
- Upscale Event and Tourism Venues

Optimal performance with any Sloan urinal flushometer.

The Designer Urinal coordinates perfectly with any Sloan urinal flushometer—exposed or concealed, manual or sensor-activated.

Buy American Act-compliant when purchased as a urinal combination

WaterSense-listed when used with a WaterSense-compliant flushometer

Designed to perform.

Water efficiency. Designed to accommodate four flush volume options to help meet your specific needs: 0.125, 0.25, 0.5 and 1.0 gpf.

Cleanliness. A fully skirted trapway provides a smooth look and easy-to-clean surface.

Continuous rim. A unique upward-pitched rim reduces splashing.

Let's talk specifications.
