

Building on Touch-free Restroom Technology

Hygiene is paramount in construction sites, an environment often associated with unsanitary working conditions. That's why sensor-based plumbing fixtures can make a major difference in these applications. Touch-free products improve hand hygiene, conserve water and energy, and streamline the handwashing process. Check out the good, better, and best touch-free product offerings below, or create your own product package to meet your needs.

Best: Beautiful Products with Hygienic Benefits
