

SLOAN'S CARBON NEUTRAL PRODUCTS

Reduce Your Water Footprint
and Your Carbon Footprint

Sloan® now offers a series of carbon neutral products to reduce the impact our products have on the environment.

Sloan is taking product transparency and our high efficient product lines to the next level. Utilizing the data provided to us in our Environmental Product Declarations (EPD), we are able to identify exactly how much carbon is embedded in our products and utilize methods to offset those carbon emissions.

To promote complete transparency and bolster credibility in our carbon neutral claim our carbon offsetting process meets the strict guidelines of the British Standards Institute (BSI) PAS 2060 standard.

Sloan recognizes our responsibility to take care of our planet goes beyond water conservation. Our carbon offset process sequesters carbon from the environment helping us and you reduce our carbon footprint and help fight climate change.

CARBON NEUTRAL OPTIONS

- Cradle to Gate (production through installation)
- Cradle to Grave (entire life cycle)

CARBON NEUTRAL PRODUCTS

- Flushometers (Royal®, SOLIS®, ECOS® and G2)
- Urinals and combinations (high-efficiency)
- Water closets and combinations (high-efficiency)
- Vitreous china lavatories (undermount, drop-in and wall hung)

USGBC LEED V4 CREDITS

- Water Efficiency - Indoor Water Use Reduction Points
- Materials and Resources - Building Product Disclosure and Optimization - EPD Points
- Materials and Resources - Building Product Disclosure and Optimization - HPD Points

SLOAN®

Sloan is proud to offset its products' carbon footprint with forestry credits through a partnership with the Arbor Day Foundation, a leader in providing nature-based solutions to sequester emissions. Sloan has purchased a bank of forestry credits in the Mississippi Alluvial Valley to offset the carbon emissions in our carbon neutral product lines.

According to the U.S. Forest Service, forests, as a whole, sequester approximately 10-20 percent of the country's emissions annually while offering additional benefits like improved air and water quality, and the ecological benefit of restoring critical wildlife habitats. Attributes that other carbon offsetting options can't offer.

SLOAN'S CARBON NEUTRAL PRODUCTS

Flushometers - Manual

Royal 111 (1.28 gpf)
 Royal 186 (0.125 to 0.5 gpf)
 WES 111 (1.28 gpf)

Flushometers - Sensor

SOLIS 8111 (1.6/1.1 and 1.28 gpf)
 SOLIS 8186 (0.125 to 0.5 gpf)
 ECOS 8111 (1.6/1.1 and 1.28 gpf)
 ECOS 8186 (0.125 to 0.5 gpf)
 G2 8111 (1.28 gpf)
 G2 8186 (0.5 gpf)

Lavatories

Undermount 19" x 17"
 Drop-in 20" x 17"
 Wall Hung w/Backsplash 20" x 18"
 Wall Hung ADA Wheelchair 20" x 27"

Urinals and Combos

Standard Top Spud (0.125 to 0.5 gpf)
 Retrofit Top Spud (0.125 to 0.5 gpf)
 Small Top Spud (0.125 to 0.5 gpf)

Water Closets and Combos

Floor Mount Top Spud (1.6/1.1 and 1.28 gpf)
 Wall Hung Top Spud (1.6/1.1 and 1.28 gpf)
