

Chicago Cubs Return to Sloan Park for Sixth Season

Sloan Park Now a Certified Autism Center for 2020 Campaign

FRANKLIN PARK, IL (Feb. 19, 2020) – <u>Sloan</u>, the world's leading manufacturer of commercial plumbing systems and the Official Water Efficiency Partner of the Chicago Cubs, will once again host the Cubs at its Sloan Park Spring Training complex in Mesa, Ariz.

After posting the five largest single-game crowds in Cactus League history last year, fans will once again find sustainable Sloan products in Sloan Park's restrooms when the Cubs open their Cactus League schedule against the Oakland Athletics on Feb. 22 at 1:05 (MST).

"We are excited to kick off Sloan Park's sixth season as the Spring Training home of the Chicago Cubs," said Sloan president, Graham Allen. "As fans continue to flock to the park in record numbers, we take pride in providing both fans and players alike with innovative Sloan products."

The park will once again feature BASYS® sensor faucets that reduce the time required to install, service, and maintain commercial faucets by 50% more than competitor brands. Additionally, other Sloan products such as the AER-DEC® integrated sink system can be found in the public restrooms behind the Suites and Party Deck level.

Sloan Park is now a Certified Autism Center (CAC) and will ensure that individuals with autism and other sensory disorders are properly accommodated. With both a CAC-certified facility and ADA-compliant products such as AER-DEC sinks, sensor faucets, soap dispensers, hand dryers, and flushometers, Sloan Park is now designed to meet the needs of a wide range of individuals.

Fans will also be greeted with Sloan innovation close to the park, as the <u>Sloan Mobile Showroom</u> will be stationed from Feb. 23-25 at Sheraton Mesa Hotel at Wrigleyville West, which is located only a five-minute walking distance from Sloan Park. A 38-foot-trailer highlighting some of Sloan's latest products and technology, the Mobile Showroom includes a virtual reality experience, active displays of Sloan's full lineup of products across the commercial restroom, a touch-screen monitor to access Sloan Center digital assets, material samples, and more.
