# Sloan Lavatories by Sloan Valve Company

### Health Product Declaration v2.2 created via: HPDC Online Builder

### HPD UNIQUE IDENTIFIER: 23104

CLASSIFICATION: 22 42 16.13 Commercial Lavatories

PRODUCT DESCRIPTION: Sloan lavatories are white vitreous china exchangeable devices that can be connected to a plumbing system to deliver and drain water and are designed to help conserve water. Sloan lavatories are made of vitreous china with an overflow, are available for wall-hung or countertop installation, and may include the following options: backsplash, wheelchair access, and 4" (102 mm), 8" (203 mm), or single-hole centerset punching. Sloan lavatories are IAPMO certified to meet or exceed ASME A112.19.2 standards and meet ADA guidelines and ANSI A117.1 requirements.

**Residuals/Impurities** 

Explanation(s) provided for Residuals/Impurities? • Yes O No

# **Basic Method / Product Threshold**

All Substances Above the Threshold Indicated Are:

Characterized O Yes Ex/SC O Yes O No % weight and role provided for all substances.

 Screened
 C Yes Ex/SC • Yes C No

 All substances screened using Priority Hazard Lists with results disclosed.

Identified O Yes Ex/SC O Yes O No All substances disclosed by Name (Specific or Generic) and Identifier.

### CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

### MATERIAL | SUBSTANCE | RESIDUAL OR IMPURITY GREENSCREEN SCORE | HAZARD TYPE

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
  - Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-2-standard

SUBSTANCE NOTES: This substance contains a certain amount of iron oxide and titanium dioxide as impurities. On this HPD, the substance is part of a ceramic material. Ceramic production melds constituent substances into a single, highly durable material matrix. The listed hazards are not expected to be available under the normal use of this product.

## 🚽 Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

### PLUMBER'S PUTTY

HPD URL: No HPD available

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Plumber's putty is needed for the initial installation of the drain and pop-up when installing the faucet, following the manufacturer's specifications.

### SILICONE SEALANT

HPD URL: No HPD available

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Silicone sealant is needed for mounting during the initial installation. The general VOC content for this material type is: 28 g/L.

# Section 5: General Notes

All of the fixtures covered within this HPD are manufactured in our state of the art, Leadership in Energy and Environmental Design (LEED) Silver, zero municipal water facility in China. This facility was designed to capture rainwater and store it in underground storage tanks where it is then processed to drinking water quality. This water is then used to support the entire engineering center; from test benches and restrooms to showrooms and landscaping. Sloan lavatories are white vitreous china exchangeable devices that can be connected to a plumbing system to deliver and drain water and are designed to help conserve water. Sloan lavatories are made of vitreous china with an overflow, are available for wall-hung or countertop installation, and may include the following options: backsplash, wheelchair access, and 4" (102 mm), 8" (203 mm), or single-hole centerset punching. Sloan lavatories are International Association of Plumbing and Mechanical Officials (IAPMO) certified to meet or exceed American Society of Mechanical Engineers (ASME) A112.19.2 standards and meet American with Disabilities Act (ADA) guidelines and American National Standards Institute (ANSI) A117.1 requirements.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
